

REBUILD UKRAINE 2.0 POWERED BY ENERGY **WARSAW, THE REPUBLIC OF POLAND**

International exhibition and conference ReBuild Ukraine powered by Energy is held on 14 – 15 November 2023 in EXPO XXI exhibition center Warsaw, Poland.

This event received the patronage of the Ministry of Energy of Ukraine and support of the Ministry for Communities, Territories and Infrastructure Development of Ukraine, the State Agency of Infrastructure Recovery and Development of Ukraine, the Ministry of Economic Development and Technology of the Republic of Poland, U.S. Chamber of Commerce in Ukraine and core ministries of EU partner countries.

The event succeeds the efficient first exhibition and conference Rebuild Ukraine, which took place this February and exceeded all expectations and inquiries of all stakeholders – international manufacturers, local communities and partners from the whole world. The organizer is the Ukrainian-British exhibition company Premier Expo.

POST SHOW REPORT

The main objectives of this event is to attract the fundraising from international institutions for recovery of Ukrainian communities, assisting Ukrainian energy companies in the restoration of the critical infrastructure facilities affected during war aggression, and to promote an investment appeal of the cities and regions of Ukraine. These areas support millions of temporary displaced families and have favourable investment possibilities.

ReBuild Ukraine second edition creates a platform to unite state authorities, international donor and financial organizations, territorial communities, representatives of charity funds, investment companies, development agencies, public and private energy generating, energy distribution, energy supply companies, construction, architectural and engineering companies. The event unites active participation of business in rebuilding of Ukraine.

THE KEY ATTRACTIONS OF EXPOSITION WILL BE:

NATIONAL PAVILION «UKRAINE AND ITS COMMUNITIES» under support of the Ministry for Communities, Territories and Infrastructure Development of Ukraine. Participants of the National Pavilion: 26 exhibiting communities, which got damage during military aggression will have an apparently to negative at recovery plan. In addition, the event will be visited by more then 100 other Ukrainian communities.
